How to read the list: Each variety has a code that indicates the year it was offered in the exchange, a two-letter abbreviation for the kind of iris, and a three digit serial number unique to that year. For example, 16TB021 was from the 2016 exchange, was a tall bearded iris, and was the 21st entry in the list in 2016. All seeds in this year's list have the prefix 18. The list is divided into 6 sections and the alphabetic codes are as follows:

I. Bearded:	Dwarf - DB Airlbred - AB	Median - MB	Tall - TB	Arillate - AR
II. Crested:	CR			
III. Beardless:	Chinenses - CH Pacific Coast - PC	Foetidissimae - FT Siberian - SB	Laevigate - LV Spuria - SP	Louisiana - LA Tripetalae - TR
IV. Misc. Beardless:	Miscellaneous Beardless - MS			
V. Bulbous:	Xiphium - XP	Reticulate - RT	Juno - JU	Nepalensis - NP
VI. Other Iridaceae:	All Iridaceae other than Iris - XX			

Abbreviations in the descriptions include **HP** for Hand Pollinated, **OP** for Open Pollinated and **WC** for Wild Collected. **Ex** indicates the original source of the seeds. That may be a person, seed exchange, wild location (also **coll.**), named cultivar or garden. *Note: Plants grown from seeds of named cultivars are not identical to their parents and should never be given that name in the garden. They are new seedlings.*

Availability: Following each item in the seed list is a code indicating the total number of seeds available. Seeds in short supply (**VF** or **FW**) may have as few as 4 seeds per packet and these will not be used as substitutes. Be sure to check substitutes when ordering these seeds.

VF = Very Few Seeds (less than 25) available. These will sell out quickly with only 1-6 packets available. If you place a late order, please *do not* order these items.

FW = Few seeds (about 50) available.

AV = Available. These seeds are generally available and most orders will be filled. Packets will have between 5 and 10 seeds.

AB = Abundant. Seeds are in abundant supply, are unlikely to sell out and will have a greater number of seeds per packet (10 or more).
